

An easy upgrade to prevent under steering is to change to a bigger rear sway bar.
There is no aftermarket sway bars available for the 32B Syncro, but you can use the original VAG sway bar from a newer Passat G60 Syncro or Golf Rallye

Golf Rallye and Passat G60 Syncro: 20 mm
Passat G60 Syncro with level control: 25mm

20mm

Sway bar: 357 511 409 D
Inner rubber: 191 511 413 B (2*)
Outer rubber: 191 511 437 B (2*)
Inner brackets: 853 411 335 (2*)
Outer brackets: 191 511 433 (2*)

25 mm: (Norwegian VAG price: ca 1370.- + mounting bracket and rubber mounts ca 1000.-

Sway bar: 357 511 409 C
Inner rubber: 357 511 413 A (2*)
Outer rubber: 357 511 437 A (2*)
Inner brackets: 357 511 417 (2*)
Outer brackets: 357 511 433 (2*)

The sway bar is a direct fit, but the exhaust must be changed to pass under the bar, as this sway bar do not have the extra curve for the exhaust
